

## **The 10 Steps to staying safe online rhyme!**

Step 1: When you go online,  
Follow these easy instructions of mine.

Step 2: Whenever you play on the screen,  
Just remember not to be mean.

Step 3: If you see something obscure,  
Consult with an adult if you're unsure.

Step 4: You may be in your personal bubble,  
But that doesn't mean you can stay out of trouble.

Step 5: If you give away your name, number or address,  
You may just start a whole mess.

Step 6: Not everyone on the internet is nice;  
When you post something think twice.

Step 7: Don't share friend's numbers without their permission,  
Thy may not like it and it's their decision.

Step 8: Although social media and apps are all the rage,  
Keep in mind you must be of age.

Step 9: In real life, you wouldn't be friends with a stranger,  
do the same on-line to keep out of danger.

Step 10: Now that this poem is done,  
Go online, stay safe and have fun!
